

- 2X the active ingredient –**  
*Fewer SmartBox® containers*
- 2X the acres with every SmartBox –**  
*Fewer refills*
- 2X the efficiency –**  
*Fewer number of pallets to store*
- 2X the convenience –**  
*Fewer boxes to load, more time to plant*

## New Convenience – Same Control & Flexibility

**SmartChoice® HC Higher Concentration Granules** fits your innovative cultural practices. With dual modes of action for proven control of Rootworm and Seed-Attacking Pests, the high-concentration formulation offers convenience like never before. SmartChoice HC offers the same outstanding performance in *narrow and twin-row applications*. It fits across a *wide range of soil types and geographies*, including coastal regions. You get the convenience of fewer containers to handle and more time to plant. SmartChoice HC protects corn roots for healthier, stronger stands and better returns from the fields you plant.

Plant more acres with fewer refills  
with SmartChoice® HC Higher  
Concentration Granules

12 row planter — 600 lbs = 330 acres treated

16 row planter — 800 lbs = 440 acres treated

24 row planter — 1200 lbs = 660 acres treated

# MAXIMIZE YIELD POTENTIAL AND STAND PROTECTION

**CROPS:** FIELD CORN, SEED CORN, SWEET CORN, POPCORN
